To: All Certified Operators in Oregon, Washington and Idaho.

To assist every operator in maintaining his / her operator’s license during the COVID-19 interruption, OCT Water Quality Academy has posted a number of Online completion classes and is working to implement ongoing Zoom classes for Grade 1 – 4 WT, WD, WW and Collection operators.

OCT Water Quality Academy (since 1991) regularly presents Grade 1 – 4 WT, WD, WW and Collections classes throughout Oregon to help prepare operators take their state ABC certification exams. The school has been an IACET Authorized provider of copyrighted CEUs since 2001. Since 1991, the school has kept approximately 30 classes registered with Oregon – OESAC – on a revolving three (3) year basis.

**Coming Zoom Classes:**

A number of WT, WD and WW Zoom classes will soon be offered based on our classes listed in the *Waterways* (drinking water), *Pathways* (wastewater), and *Small Water Systems* (SWS) class catalogs. The schedule of individual Zoom class topics is currently being developed. Every class is supported with a written class workbook publication sent to an enrollee prior to the online class presentation.

**Online Classes:**

OCTWQA Online classes are available at:  [https://elearning.octwqa.org/catalog/index](https://elearning.octwqa.org/catalog/index)

**Response preparation classes to the new (as of May, 2017) ABC Exams:**

OCTWQA now has the following two (2) classes to better prepare operators who are about to take the new style ABC exams:

- a. **WW – 129 Wastewater Laboratory Certification Study Guide.**
- b. **WW – 161 Equipment Evaluation, Inspection and Maintenance.** New as of May, 2020 and responds to sections 2 and 3 in the Grade 1 – 4 ABC wastewater exams.

The above are available as printed publications, or as upcoming Zoom classes.
